

Fifth Annual Carolina Speed Rally

Event Description: The Carolina Speed Rally is a unique RC event. The morning format will be single plane flying, pilots will have two passes thru the radar speed trap from two directions. An official speed document will accompany each run. This document will certify the speed run and give bragging rights to the pilot. There are no rules in regards to size, weight, engine, fuel, propeller, etc. After lunch will be open flying if all registered planes have made their runs. **If you like speed planes, you will not want to miss the morning speed passes.** Please call or email if you have questions. We would love to hear from you.

Location: Caldwell Aero Modeler Field
Mt Herman Rd, Hudson, NC
Date: June 30, 2012
Pilot Brief: 10:00 AM

Landing Fee: \$5 includes one speed certificate
